FILTRATA

Modern kitchen mixer
with water filtration
function

BFT41 standing two-way flow kitchen mixer
for filtered water

FILTRATA is a true 2-in-1 solution for your kitchen! The dual-function spout ensures comfortable dishwashing and provides filtered water for everyday consumption. You can easily and conveniently switch between the two options. With FILTRATA, you'll also reduce household expenses – thanks to its innovative design, you can replace bottled water with healthy water from your own source. The modern, minimalist design perfectly complements interiors of various styles. The range includes mixers with a swivel spout in classic chrome finish or with a flexible spout in trendy matte black. FILTRATA is compatible with all popular types of filters.

FILTRATA

Modern kitchen mixer
compatible with water filters –
elegance, comfort and healthy
water in one.

The flexible spout gives you full
freedom – easily fill a glass of clean water
or larger kitchen vessels.

This mixer combines elegant design with everyday practicality. Thanks to the option of connecting a water filter, you gain constant access to fresh drinking water straight from the tap – convenient and environmentally friendly. It's an investment in comfort, health, and sustainability for your kitchen.

Modern design

The mixer features an aesthetic that complements a variety of kitchen styles – from classic to minimalist.

Economy & ecology

Replace bottled water with filtered water – a solution that protects nature and saves your budget.

Ergonomics

Convenience: **one spout** for filtered and tap water. The spout's design ensures user comfort and ease of operation.

Health

With filtered water from this mixer, your family enjoys clean and healthy drinking water every day.

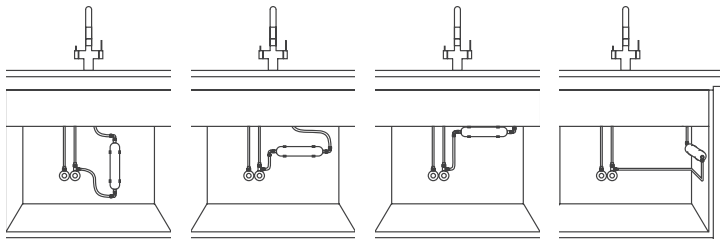

Easy replacement

Easily replace your old mixer with FILTRATA – it can be installed in an existing hole in the countertop or sink.

Easy connection

Installation is simple. Thanks to the independent filter connection, setting up the system is quick and hassle-free.

All components can be conveniently placed in the cabinet under the sink, without taking up extra space. The compact design makes it a perfect choice even for smaller kitchens.
